AETEK NDAA & TAA Compliance Statement

Date: August 28, 2025

Background

To address a perceived cybersecurity risk, an Interim Final Rule of the **National Defense Authorization Act (NDAA)** for the Fiscal Year 2019 became effective on August 13, 2019. Section 889 prohibits certain telecommunications and video surveillance services or equipment from specific vendors and affects both current and future U.S. Government-related video surveillance deployments. This prohibition also extends to manufacturers that offer products under another brand (common in OEM, ODM, and JDM arrangements).

The **Trade Agreements Act (TAA)** of 1979 is another crucial regulation for government procurement. TAA requires that products sold to the U.S. Government must be manufactured or substantially transformed in a designated country with which the U.S. has a trade agreement. This ensures procurement of high-quality products from trusted sources.

Together, NDAA Section 889 and TAA ensure that government projects only use compliant and secure products. AETEK solutions are fully aligned with these requirements, allowing seamless integration into government, military, and critical infrastructure projects.

AETEK Statement

AETEK is committed to meeting the highest standards of security, reliability, and quality set by the U.S. Government. Our NDAA and TAA compliant product lines are designed to satisfy these strict requirements, enabling customers to confidently deploy AETEK solutions in any setting or application.

AETEK affirms that its PoE switches, PoE extenders, PoE injectors, surge protectors, long reach PoE devices, camera housings, SFP transceivers and related products are fully compliant with NDAA Section 889. Furthermore, AETEK does not utilize any chipsets or components capable of processing software from the prohibited Chinese companies referenced in NDAA Section 889.

AETEK NDAA & TAA Compliant Product List

Product Category	Model
Managed PoE Switch	C50 Series, C51 Series, C60 Series, C62 Series, C70 Series, D51 Series, D60 Series, D62 Series, H60 Series, H62 Series, H70 Series, H80 Series
Unmanaged PoE Switch	C11 Series, C42 Series, D40 Series, D42 Series, H30 Series, H32 Series, H36 Series, H21 Series, H40 Series, H42 Series
PoE Injector	I36 Series, I39 Series, I46 Series, I49 Series, I63 Series, I69 Series
PoE Extender	E59 Series, E69 Series
PoE Splitter	S69 Series
Media Converter	M30 Series, M31 Series
PoE Surge Protector	SD Series
EPoC	XE Series, XC Series
EPoT	TE Series, XT Series
EPo2	2E Series
EPoH	HE Series, CH-200 Series
Camera Housing	A Series, P Series, M Series, S Series
PoE Cabinet	OS Series
SFP Transceiver	SFP Series, SFPP Series
